

OPEN CREDENTIALING INITIATIVE

# Credentialing for DSCSA compliance by fall 2023

Electronic credentials enable facilitated automated connections  
between dispensers and manufacturers

- Effortless DSCSA compliance
- Counter malicious actors and reduce patient risk
  - Reduce human error and frustration
- Fast product enquiries reduce quarantine and speed up stock turnover

Turn your existing documents and licenses into electronic credentials

Identify yourself instantly in fully automated electronic product enquiries

Forget about having to find the right contact and lengthy exchanges.

Verification Routing Service combined with electronic credentials take away all the hassle.
